**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I support broadband competition because it provides a better quality/price for end user. Dont know if we are in a capiatalism system or something else because competition is the backbone of it. Other companies such as ATT love to give bad service and product while hiding under the old regulations and the monopole because of there own interests.
